Technology & Leadership Strategist | Keynote Speaker
Bestselling Author, Corporate Trainer & University Educator

Co-Founder, Relationships Reimagined®

Patterns Shape Performance.

Helping leaders recognize the patterns shaping communication, decisions, and team performance before those patterns affect results.

HOW RICHARD HELPS ORGANIZATIONS

Richard helps leaders communicate under pressure, guide teams through technology and organizational change, and strengthen collaboration across business and technology teams.

FEATURED EXPERTISE: Technology Leadership · Digital Transformation · Executive Communication · Organizational Change · Data-Informed Decision-Making
 Leadership Development · Team Effectiveness · Business and Technology Alignment

SELECTED PROGRAMS

The Clearer Team™

How hidden patterns shape communication, trust, and accountability.

Communication Under Pressure

Leading conflict, feedback, and high-stakes conversations.

The Human Side of Technology Change

Building trust, alignment, and adoption during digital transformation.

WHAT ORGANIZATIONS GAIN

- Stronger communication across business and technology teams
- Better decisions during change and uncertainty
- Greater trust and accountability
- More effective adoption of new tools and processes
- Earlier resolution of conflict and misalignment
- Stronger leadership across teams and generations

Best for: Corporate conferences, technology and innovation events, leadership summits, HR and L&D programs, manager development, executive retreats, team off-sites, professional associations, and higher education leadership programs.

Available as: Keynotes, workshops, corporate training, leadership development programs, customized team learning, and panel discussions.

ABOUT RICHARD

Amazon Bestselling Author · Co-author of Four Books

Richard Wallace is a technology and leadership strategist, keynote speaker, corporate trainer, bestselling author, and university educator who helps leaders recognize the patterns shaping communication, decision-making, and team performance.

With more than 30 years of experience across technology leadership, digital customer experience, data, enterprise systems, and organizational change, Richard has led complex initiatives and taught business technology and information systems at the university level. He translates that experience into practical frameworks that help leaders communicate under pressure, guide teams through change, and improve collaboration across business and technology functions.
